1. Purpose & Scope

This document is the contract for pricing and packaging. It governs:

- The four plan tiers.
- Add-ons, bundles, and usage overages.
- Discount policy (sales overrides, promotions, partner pricing).
- Lifecycle pricing (upgrades, downgrades, grandfathering).
- Region-specific pricing (NA, EU, APAC).
- The pricing page and quote-to-cash flow.

2. Pricing principles

1. Simple. Four plans, each with at most three add-ons.
2. Aligned with value. Price scales with active usage, not just seats.
3. Predictable. No surprise overages — soft caps, alerts, opt-in.
4. Fair. Annual discount is meaningful, not gimmicky.
5. Defensible. Pricing is published; no hidden fees.

- Q3 2027: Annual vs monthly for Solo — measure annual conversion.
